

A Multi-Specialty, Longitudinal Care Model Designed to Improve Quality & Affordability

At Galileo, we believe high-quality care should be affordable and accessible for all and we've built a new way to deliver it. Our in-house primary care providers and specialists provide acute, urgent, chronic and complex primary and specialty care and manage 90% of all healthcare needs digitally. For the 10% of cases that require in-person procedures, labs or diagnostics, our navigators refer to in-network providers or point solutions.

A Collaborative Approach Leads to Faster, More Accurate Diagnosis & Treatment

Highest Quality Providers

- National expertise
- In-house providers
- 10+ years experience
- Culturally inclusive
- No call centers or contractors

Multi-Specialty Collaboration

- PCPs and specialists collaborate in real time
- Built-in second opinions
- Fully coordinated care
- 20+ specialties

Traction & impact

Galileo works with employers of all sizes and segments (Fortune 100, Manufacturing, Healthcare, Retail, Food Service, Trucking, Entertainment, Gaming, Technology, etc.) to improve clinical outcomes while reducing total cost of care across broad, complex and diverse populations.
